

Care Illuminated

We know that specialty drugs can be complicated. That's why we provide you with the highest level of custom care to make sure you have guidance, clarity and peace of mind to manage your condition well and live a healthier, happier life. Our experienced pharmacists and care team understand your chronic condition and the drug used to treat it. We also work with your doctor to make sure your Rx use is safe and effective.

Our services include:

Pre-therapy screening — We work to keep you safe. We will review your lab reports to make sure they are within normal limits before you begin therapy. If there are any concerns, we'll contact your doctor.

Drug delivery — Most specialty drugs require special packaging, handling and shipping. We make this process easy by delivering directly to you. We'll track the shipment and let you know when your drug will arrive.

Drug and condition support — You'll receive a care plan with goals to help you through every treatment step and our pharmacists will teach you how to properly use your drugs. We also provide support in managing side effects or reactions with other drugs you may be taking.

Refill Reminders — We'll remind you about refills by phone or text before you run out of your Rx.

Connecting with your doctor — As part of your care team, we have access to your medical records and lab results. This allows us to directly talk with your doctor to make sure your drugs match their instructions.

Easier to Fill (And Refill) Your Specialty Rx
Getting your specialty drugs shouldn't be a hassle. At Lumicera, we make it fast and easy. We are a complete source for your specialty drugs and supplies. That means no more trips to the pharmacy and no more waiting in line. Everything you need comes in your shipment.

Your health is our mission, and we will be there for every step of your care. When you work with us, we will shine a light on your path to health — that's Care Illuminated.

Why Choose Lumicera?

More Service and Support

You can count on us for service and support. We want to help improve your health and give you peace of mind. We offer a personalized support program, delivered by our chronic condition experts, that provides you with the best care.

Ordering refills is easy too. You can easily order refills online, by text message or by calling us.
