## Welcome to Lumicera

Providing greater support and savings for your Specialty Drugs

## Care Illuminated

Specialty drugs can be complicated. We also work with your doctor to make sure your prescription use is safe and effective.

### OUR SERVICES INCLUDE:

#### Pre-therapy Screening

We work to keep you safe. We will review your lab reports to make sure they are within normal limits before you begin therapy. If there are any concerns, we'll contact your doctor.

#### Drug & Condition Support

You'll receive a care plan with goals to help you through every treatment step and our pharmacists will teach you how to properly use your drugs. We also provide support for managing side effects or reactions with other drugs you may be taking.

*Your health is our mission, and we will be there for you every step of your care. When you work with us, we will shine a light on your path to health – that's Care Illuminated.*

#### Drug Delivery

Most specialty drugs require special packaging, handling and shipping. We make this process easy by delivering directly to you. That means no more trips to the pharmacy and no more waiting in line. Everything you need comes in your shipment. We'll track the shipment and let you know when it will arrive.

#### Connecting With Your Doctor

As part of your care team, we have access to your medical records and lab results. This allows us to talk directly with your doctor to make sure your drugs match their instructions.

#### Prior Authorization & Financial Assistance

We will work with your provider's office to coordinate prior authorization to get you the medication you need quicker. We will work with all available financial resources and programs to assist getting the medication for you at a cost you can afford.

#### GETTING STARTED

We're here to answer your questions and offer assistance whenever you need it. Give us a call today to start your therapy:
